SECTION V: AIRCRAFT RENTAL AGREEMENT (ALL PILOTS AND STUDENTS)

The renting pilot is responsible for the safe and conscientious operation of the aircraft until it is returned and securely tied down at Take Off Aviation Services facilities. The following company aircraft rental policies and conditions apply to each flight.

I, the renting pilot, agree:

1. To operate in accordance with all applicable FAA regulations
2. Not to use the aircraft to give flight instruction to any individual, unless I am an authorized Take Off Aviation Services Instructor on a specified dual training flight.
3. To land only at FAA designated airports that are safe and suitable under the prevailing conditions.
4. Not to authorize or allow any other person to operate or handle the aircraft.
5. To contact Take Off Aviation Services if I am unable to return the aircraft at the agreed time for any reason.
6. To pay any landing fees, tie down fees, or any other charge incurred by me while the aircraft is in my possession.
7. All over-night/multi-day rentals must have written management approval. In such cases, a minimum charge of three hours for each 24-hour period that the aircraft is in my possession will be applied, unless prior approval is acquired from management.
8. To report all accidents, major or minor to Take Off Aviation Services as soon as safe and practicable, together with the names and addresses of witnesses and involved parties. In the event of an accident I will not permit the aircraft to be moved unless expressly authorized by Take Off Aviation Services or local, state, or federal authorities and will do all that I can to protect the aircraft and its equipment from further loss.
9. To pay an interest charge on any balance remaining in delinquent status (30 days or more over due) to Take Off Aviation Services, LLC. Interest charges will be computed at 10% APR or 0.83% per month or 0.027% per day whichever is greater.
10. To accept the Hobbs Meter reading at the beginning of the flight, rounding to the next highest tenth if it is not showing. Should the starting time be recorded incorrectly, I must bring this to the attention of management before starting the flight.
11. To pay the cost of recovering the aircraft if abandoned away from Space Coast Regional Airport (TIX) including: all transportation expenses for one pilot to get to the abandoned aircraft, pilot time at standard solo rate for all time recorded on the aircraft while away from home base, and all other costs directly related to this operation. Abandonment due to maintenance issues with the aircraft is exempt from this requirement.
12. To obtain weather reports and forecasts, to file FAA flights plans for all flights in Instrument Meteorological Conditions and all cross-country flights greater than 50 nautical miles from the point of departure, and to use the aircraft only for this purpose and over the route specified.

INITIALS_____

13. Should I need to purchase fuel for the aircraft, I will have it credited to my account at the current Take Off Aviation Services reimbursement rate. I understand all purchases must be documented with an original receipt at the time the aircraft is returned.

14. To see that the aircraft is securely tied down in a proper area, master and ignition switches off, controls secured, and doors locked.

15. To remain current in each aircraft I fly in accordance with FAR's and to have a recheck if I have not flown a Take Off Aviation Services aircraft within the preceding 180 days.

16. If I have purchased Pre-Paid Block-Time on my account, I understand a full refund will be given; however unless at least 8 hours were flown by me using that Pre-Paid Block, I agree to pay the difference between the discounted Block-Time Rate and the current retail price for all time used. I understand my refund will then be based upon the remaining funds available. I understand the refund process can take up to 30 - 60 days to complete.

17. To accept and abide by the current no show policy of Take Off Aviation Services. If I am unable to fly an aircraft as scheduled, I will notify Take Off Aviation Services at least twelve hours prior to scheduled flight time. If I am more than 15 minutes late for a scheduled flight and the flight cannot be reasonably completed in the remaining time scheduled, then I agree to have the flight labeled as a "No Show" and pay a fee equal to ½ of the time scheduled at the aircraft's normal rental price if solo flight or ½ of the time scheduled at the aircraft's normal rental plus full time scheduled for the appropriate instructor if scheduled a dual flight.

18. Not to either perform or authorize any repairs or adjustments, nor make any purchases in relation to the aircraft without authorization from Take Off Aviation Services management.

19. To accept liability for any damage done to the aircraft while in my possession.

20. Not to smoke in the aircraft. If found to be in violation of Take Off Aviation Services' non-smoking policy, I forfeit all privileges as a Take Off Aviation Services customer.

21. To provide all necessary personal identification as requested by management including, but not limited to: driver's license, passport, and applicable visas.

22. To maintain aircraft security and cleanliness by following the checklist (i.e.: electrical switches, fuel selector valve, control-lock, proper tie-down, locking all doors and installing pitot tube cover and removing all trash from the flight deck after each flight.) If found in violation of Take Off Aviation Services' security and cleanliness policy I agree to pay a \$50.00 clean up fee.

I hereby acknowledge that I have read and understand the policies of Takeoff Aviation Services, LLC and agree to abide by all.
